

DHL

de-haze liquid

DESCRIPTION

DHL is a powerful caustic cleaner for removal of stains and ghost images from screens during the reclaiming process. Use DHL when ever stubborn stains persist in screens. DHL will de-haze and degrease the screen and help prevent haze from occurring.

ADVANTAGES

- Fast, efficient removal of haze
- Biodegradable
- Low cost per usage
- Easy to use
- Eliminates extra degreasers

DIRECTIONS

Apply DHL by spray, towel or brush onto well side of the screen. Scrubbing both sides of the screen usually produces better results. Allow to soak for 30 seconds to 3 minutes. Apply a high pressure, low volume rinse working from side to side and bottom to top. A final water rinse over the entire frame and mesh is recommended to remove any trace of chemicals. Allow to dry completely before recoating.

TYPICAL PRODUCT PROPERTIES

Appearance	Clear, amber liquid
Odor	Caustic / butyl odor
pH	13.5
Flash Point	165°F
Specific Gravity	1.17
Weight, per U.S. gallon	9.8 lbs.
Stability	Good
