

BIO-1

biodegradable ink remover, stain remover & degreaser

DESCRIPTION

Bio-1 is a water soluble ink degradant and stain remover. Formulated using biodegradable and organic compounds that make Bio-1 environmentally acceptable, safe and highly effective. The 100% active formula of Bio-1 works on contact by immediately penetrating and dissolving all types of graphic and textile inks. Bio-1 efficiently removes plastisol, UV, conventional/solvent based, water based, enamel, electronic, epoxy and vinyl inks from screens. The built ink stain remover aggressively removes image stains without harming the mesh. Bio-1 rinses freely and easily with water and has a very pleasant bubblegum scent.

ADVANTAGES

- Biodegradable and drain safe
- High solvency
- Excellent stain removal
- Mesh safe
- Non-toxic, non-flammable and non-corrosive
- Lower cost per usage

DIRECTIONS

Always card excess ink from the screen prior to beginning reclaim. Spray the ink side of the screen in a light, even pattern. Agitate the ink with a brush or cloth. Rinse with a cold water, low volume, high pressure rinse. For best results, use on dry screens.
