

E-Zee Cut[®] Extra Stable

~ A Medium Weight Cut Away Stabilizer with Grids

E-Zee Cut[®] Extra Stable 2.5 oz. is a medium weight Cut Away stabilizer. It is a low profile stabilizer that has grids within the core to provide extra stability without the extra bulk of a lofty stabilizer. The softness of this stabilizer makes it ideal for use on garments that will be worn against sensitive skin. Use for high stitch count designs with medium to heavy weight fabrics. Cut Away stabilizers should be used for unstable and knit fabrics.

How to use Cut Away Stabilizers

1. Cut a piece from a roll or use a piece of pre-cut E-Zee Cut[®] Extra Stable to fit your hoop size.
2. Hoop by placing the stabilizer underneath the garment and secure the hoop.
3. Embroider the design and remove the embroidered item from the hoop.
4. Trim the excess stabilizer with a sharp pair of scissors or shears, leaving approximately ¼" around the outside of the design. Rounding the corners instead of leaving them square or pointed will prevent curling.

Available in these sizes:

Pre-cuts - 250 pieces per pack
• 7.5" x 8"

Rolls

- 30" x 50 yards
- 30" x 100 yards

Available in white and black

Please Note

E-Zee Cut[®] Extra Stable is made from 100% polyester.
Use a press cloth and low to medium heat when ironing.
